

## **Other RCS Resources**

Other resources are available through PAC and the Reverse Culture Shock / Re-entry Stress service. These resources include: free ebooks, an extensive bibliography, and research studies (M.A. theses and doctoral dissertations) as well as personal references to people who live in the area who are concerned with member care. These people include both recently “returned” MKs/TCKs and cross-cultural workers from many different kinds of situations around the globe. Resources and contacts can be provided to you via email, video conferencing or phone contacts.
